Profile

Python Developer experienced in backend development and designing RESTful APIs using Django and Django REST Framework. Proficient in Python programming, machine learning (supervised and unsupervised learning, NLP), and data processing with Pandas, NumPy, and scikit-learn. Skilled in SQL databases including PostgreSQL and MongoDB, ETL pipelines, and API integration. Experienced with unit testing (PyTest), Linux environments, CI/CD pipelines, Docker, Git, Celery, and Postman. Analytical problem solver delivering scalable, data-driven solutions in Agile teams.

Skills

Programming Languages: Python, Java, C, C++

Machine Learning & AI: Supervised Learning, Unsupervised Learning, Natural Language Processing (NLP), Model Evaluation, Feature Engineering

Frameworks: Django, Django REST Framework, Spring Boot, Selenium

Libraries: NumPy, Pandas, Matplotlib, Scikit-learn, Pygame

Web Technologies: HTML, CSS

Databases: SQL, MongoDB, PostgreSQL (pgAdmin)

Tools & Platforms: VS Code, Jupyter Notebook, IntelliJ IDEA, PyCharm, Postman, Git, Celery, Docker, Linux

Testing & Deployment: Unit Testing (PyTest), CI/CD Pipelines, API Integration

Data & BI Tools: Microsoft Excel (Advanced), Power BI

Core Competencies: Object-Oriented Programming (OOP), ETL & Data Processing, RESTful API Development, SQL Optimization, Analytical Problem Solving, Agile Methodologies

Experience

Python Developer Intern

Apr 2025 – Sep 2025

TruBoard Partners, Mumbai

- Implemented Python ETL workflows, reducing manual effort by 30%.
- Developed and optimized RESTful APIs using Django and PostgreSQL, boosting performance by 25%.
- Processed and analyzed 10,000+ records with Pandas and NumPy.
- Collaborated in Agile Scrum teams and participated in code reviews.
- Utilized Git for version control and Docker for containerized development.

Personal Projects

Flappy Bird

Python, Pygame

github.com/iRitikSharma/Flappy-Bird

- Recreated classic Flappy Bird game with real-time mechanics and score tracking.
- Developed 3 core features: obstacle generation, collision detection, and animation rendering.
- Optimized game loop for 60 FPS, improving performance by 25%.

J.A.R.V.I.S

Python

github.com/iRitikSharma/JarvisAI-Python

- Developed desktop AI assistant with voice command capabilities.
- Automated 3+ task types: web scraping, file operations, and real-time interactions.
- Improved voice command accuracy by 15%, enhancing task execution reliability.

Office Employee Management System

Python, Django

github.com/iRitikSharma/Office-Employee-Management-System

- Developed a secure, web-based CRUD application with user authentication.
- Implemented role-based access control (RBAC) and permissions management.
- Optimized PostgreSQL database queries, improving CRUD operation efficiency by 20%.
- Enforced data security by implementing strict access controls to protect sensitive information.

Education

K. R. Mangalam University

2020 – 2024

Bachelor of Technology in Computer Science

S. M. Arya Public School

2017 – 2019

Grade 10th & 12th

Certifications

- Complete Python Bootcamp 2024: Zero to Expert in Python – Udemy
- Learn SQL – Codecademy

Languages

English (Fluent), Hindi (Fluent)
